Subject: Split Vaccine Appointment Fee

The Physicians at Southwest Pediatrics-WUCA follow the American Academy of Pediatrics recommended child vaccination guidelines. Multiple vaccines can be safely given at age appropriate preventative care visits in our office.

It is not recommended to “split” a child’s vaccines into multiple appointments. However, for parents who choose to do so, there will be a \$25 fee to cover the expenses involved with each additional visit needed to administer the vaccines.

- **The \$25 fee will be due at the time of the additional date of service, prior to the administering of vaccines.**
- **The patient/parent is responsible for this fee. It will not be submitted to any insurance companies.**

Thank you,
Southwest Pediatrics, LLC
